*Something for your face is a great place to start,
A tool for every superhero to make sure you look the part.
To hide your human identity we need this thing for sure,
Look in the bag at your superspace and have a little explore!*

That's right! To start with you need your mask, elastic and felt tip pens. Think about what colours you'd like your Super Self to have and make it stand out from the crowd!

*We've completed our challenges now what to do,
Batman needs robin, we need to grow our crew,
A sidekick friend we really do need,
Let's have a fly off and see who takes the lead!*

Next up is your sidekick! Give him a name and colour him in, don't forget to practise his flying skills!

*Superheroes are big and tough,
but to complete your look we need a cuff.
It could shoot out webs or send out light,
but first let's colour it, bold and bright!*

To finish your super self, you need your very own cuff that holds all your powers. What is your superpower?! Make sure you colour it in before popping it on your wrist.
